

MINI PAT[®] XL

miniPATxl - The compact schwab-paternoster for high loads

The construction principle of this storage paternoster allows smallest distances between the carriers. Already at an overall height of just 2.900 mm, 12 carriers with a payload of one ton each are fitted in the **miniPATxl**.

Due to the patented material consumption - schwab secure lock - the carriers can be taken out, including whilst loaded with the material.

- a) a touch of a button brings the desired position of the carriers
- b) the removal car (or lift truck, forklift) gets inserted
- c) the control drops down the carrier for removal
- d) now the material can be taken out, for example by crane

The handling is simple, secure and flexible.

miniPATxl - Benefits at a glance:

- shorter access times
- optimal space utilization
- order and review in warehouse
- the material comes to the operator
- maximum material in minimum area
- simple operation
- low asset costs

Technical details & data

miniPATxl

	width 3.000 mm			width 6.000 mm		
Height	Carrier	Loading each carrier	Capacity	Carrier	Loading each carrier	Capacity
2.900 mm	12	1 000 kg	12 t	12	1 000 kg	12 t
3.250 mm	14	1 000 kg	14 t	14	1 000 kg	14 t
3.600 mm	16	1 000 kg	16 t	16	1 000 kg	16 t
Dimensions						
Width	4 100 mm			7 100 mm		
Depth	1 300 mm, plus protection grids					
Carrier width	3 200 mm			6 200 mm		
Carrier depth	340 mm			340 mm		
Carrier height	220 mm			220 mm		
Power units						
Motors	SEW gear motor, power 6 kW					
Controls	Buttons up/down, loading mode					
Loading/Discharging	By miniPATxl-loading trolley, pallet truck or forklift					

Subject to change

miniPATxl is a product of schwab Förder- und Lagertechnik GmbH. schwab in Oettingen have developed industrial plants for more than eighty years. Our qualified staff set standards in modern engineering. The many years of experience, continuous development and an open eye for novelties and the needs of trade and industry form the foundation for quality, perfection and innovation.
